

Motor Vehicle Emissions Control Workshop 2014 (MoVE 2014)

25-27 June 2014

Cheung On Tak Lecture Theatre, The Hong Kong Polytechnic University

Dear Friends,

Motor Vehicle Emissions Control Workshop (MoVE) is an International conference for those who wish to sharing of experience and information on the latest technological developments in order to reduce the motor vehicle emissions for better protection of public health. You are now invited to register for the MoVE2014. It is free of charge to attend all meetings of MoVE2014. Registrations are based on first come, first served basis.

Introduction

Motor vehicles and marine vessels are the main sources of air pollution in urban areas. Hong Kong and the Mainland cities have accorded high priority to reduce their emissions for better protection of public health. To promote sharing of experience and information on the latest technological developments, the Ministry of Environmental Protection, China, the Hong Kong Environmental Protection Department, and the Hong Kong Polytechnic University have been organizing biennially Motor Vehicle Emissions Control Workshop (MoVE). Past MoVE workshops were well attended (over 250 attendees each) and received by professionals, academics, government officials and practitioners locally, nationally and internationally.

Main Themes

- 1 Latest Developments in Worldwide Vehicle Emissions Control Strategy and Policy;
- 2 Health Impact from Air Pollution;
- 3 In-Use Vehicle Emissions Control and Retrofit Technologies;
- 4 Vehicle Emission Measurements and Modelling;
- 5 Worldwide Use of Electric Vehicles and other Alternative Fuel Vehicles;
- 6 Control of Emissions from Marine Vessels;
- 7 Control of Emissions from Off-Road Machineries;
- 8 Cities Experience Sharing on Motor Vehicle Emissions Control.

We have set up the conference website as below:-
